

Stamp Printed Calico Bag

Junior Primary / Senior Primary

LESSON PLAN

TITLE: Stamp Printed Calico Bag
YEAR LEVELS: Junior Primary / Senior Primary
TIME FRAME: 2 X 1 Hour lessons

LEARNING GOALS

Understand the elements of shape, pattern and composition

Develop skills in print making and design

SKILLS

In this lesson students explore a simple print making technique using stamps on a calico bag. Students consider the shapes that they are using and how they can be adapted or repeated to create a design to suit an audience.

MATERIALS

Calico bag
Fabric markers
Acrylic paint
Brushes
EVA stamps

ACTIVITY BREAKDOWN

Lesson 1

Students explore different designs and brands from clothing labels and patterned fabrics. Discuss how shapes have been used to create pattern and the importance of composition in a design.

Students use EVA stamp shapes and letters to create their own individual design. Students consider how the shapes can be used in terms of colour and repetition. Students practice using the stamps and creating their designs on a piece of paper with acrylic paint.

Lesson 2

Students create a final piece for a bag design on a calico bag. Students stamp their shapes and letters on to a bag and then work over these shapes with fabric markers to add details and complete their work.

REFLECTION / EXTENSION

Reflection: What kind of audience was this bag made for? Who is the demographic and why? How could the design be changed to suit a different demographic? How has shape and pattern been used in your design?

Extension: Students can work on different surfaces or create their own textiles base to stamp on. Students could sew their own bags, pencil cases or T shirts to work on.
